PROFILE

BS Information Technology graduate specializing in Web and Mobile Application Development. Current Web Developer with experience building responsive React interfaces and PHP/MySQL-backed academic workflows, supported by system testing, technical documentation, accessibility, and Git-based delivery.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, responsive design

Backend & Data: PHP, MySQL, XAMPP, REST workflows

Mobile & Quality: Kotlin, Expo Go, system testing, accessibility

Tools: Git, GitHub, Vercel, Figma, VS Code

EXPERIENCE

Web Developer - Highly Succeed Inc. Dec 2025 - Present | Mandaluyong City

- Build reusable React components and responsive screens for an employee and inventory management system spanning attendance, leave, onboarding, and reporting.
- Translate workflow requirements into clear interface states, forms, tables, role-aware navigation, and accessible interaction feedback.
- Debug usability and cross-browser issues and use Git-based delivery workflows to prepare and publish updates.

SELECTED PROJECT

FacilitEASE - Web and Mobile Property Management System Aug 2024 - Nov 2025

- Helped map paper-based facilities processes into seven connected modules for reservations, job orders, inventory, maintenance, dispatch, and notifications.
- Supported PHP/MySQL, Kotlin, JavaScript, XAMPP, and Expo Go development across web and mobile workflows serving four role groups.
- Tested core workflows through documented alpha and beta testing; the project received Best in Website and Best in Trailer recognition.

EDUCATION & COMMUNITY
