PROFILE

BS Information Technology student majoring in Web and Mobile Application Development, graduating September 2026. Front-end developer with hands-on experience in responsive web applications, AI-assisted automation, networking, and device configuration. Skilled in building user-focused interfaces, testing workflows, and collaborating through Git.

TECHNICAL SKILLS

Programming and Web: HTML, CSS, JavaScript, React, PHP

Backend and Database: Node.js, Express, MySQL, Firebase, MongoDB

Tools: Git, GitHub, Visual Studio Code, Figma, XAMPP

IT and Networking: Network Security, Networking, Device Configuration, IT Support

Design and Automation: Responsive Web Design, UI/UX Design, AI Automation, Prompt Engineering

EXPERIENCE

FacilitEASE, Capstone Project, Quezon City

Aug 2024 to Nov 2025

- Contributed to FacilitEASE, a property management and reservation system for FEU Diliman covering reservations, job orders, inventory, maintenance, and notifications.
- Tested web and mobile workflows, identified bugs, and verified functionality, usability, and data accuracy across core modules.
- Automated data-processing and documentation workflows using scripting to reduce manual work and improve consistency.

Full-Stack Developer Intern, Highly Succeed Inc., Mandaluyong City

Jun 2026 to Present

- Develop and maintain responsive web applications using HTML, CSS, JavaScript, and React.
- Support interface testing, debugging, accessibility, and Git-based team development workflows.

PROJECTS

Highly Succeed Human Resource Information System (HRIS)

2026 | Front-End Developer (Team Project)

- Contributed to a centralized enterprise HR platform supporting employee management, onboarding, attendance and timekeeping, leave management, asset assignment, role-based permissions, dashboards, and reports.
- Built and tested responsive Next.js interfaces, refined HR workflows, resolved UI issues, and collaborated with the project team through Git/GitHub.

DEADKIDS (DDKDS CLO.) E-Commerce Website

2026

- Designed and developed a responsive full-stack e-commerce website for a streetwear brand, covering product browsing, product details, cart, and checkout.
- Created an admin dashboard for products, inventory, promotions, orders, and storefront content, paired with responsive editorial styling and smooth interactions.
